### VERTICAL

This property is part of the VERTICAL project, consisting of 3 sub-areas: "East" with a high tower with 112 apartments, "Center" with 14 town homes and garden homes in low-rise buildings, and "West" with 42 (private sector) rental homes. The project was designed by 5 Dutch architects and meets contemporary sustainability requirements.

VERTICAL will be one of the most sustainable buildings in the Netherlands. The design is organic with lots of greenery through vertical gardens. In addition to the transformation of the neighborhood into a diverse living-working area, attention is paid to conviviality with the "shared living" concept. Meet friends or neighbors on a floor in the residential tower. The complex also has a bar/restaurant, a gym and communal work space.
