## A first impression

The building, whose street-facing façade dates in part from the original construction period, has been extensively renovated in recent years and two new storeys have been added. This high-quality apartment, which meets the current new-build standard and has a new-build energy certificate, was created between 2021 and 2025.

With a living space of around 97 m<sup>2</sup>, the property offers generous space for couples or families who value peace, comfort and modern furnishings. The floor plan is well thought-out, bright and open, so that the rooms can be used optimally.

All areas are directly accessible via the central hallway. On the street side, there are two spacious bedrooms that impress with their brightness and view of a tree-lined street. The living and dining area, the kitchen area and the daylight bathroom face the quiet inner courtyard. From the courtyard-side living area, you can access the sunny south-east-facing terrace, which invites you to spend relaxing hours outdoors.

The daylight bathroom is modern and has a bathtub, a walk-in shower, a towel radiator and a washing machine connection. The separate WC with washbasin is located directly next to the kitchen.

High-quality Swiss real wood parquet flooring from Bauwerk, double-glazed plastic windows on the street side and triple-glazed plastic windows on the courtyard side as well as a newly created, spacious cellar compartment underline the high residential value of the apartment. The stairwell has been completely renovated and a modern passenger elevator provides convenient access. A parking space in the inner courtyard can be rented or purchased as an option, which further enhances the quality of living in this location.

This apartment combines contemporary architecture, energy-efficient construction and a first-class location. A rare opportunity for discerning buyers who value quality, comfort and urban quality of life.
